**TERMINAL DISCLAIMER**

Air Products and Chemicals, Inc., a corporation of Delaware, resident in the county of Lehigh and Commonwealth of Pennsylvania, represents that it is the assignee of the entire ownership of application Serial No. 10/724,884, filed 2 December 2003, entitled **"IMPROVING THE PHYSICAL PROPERTIES OF POLYURETHANE FOAMS USING TERTIARY AMINO ALKYL AMIDE CATALYSTS,"** the assignment having been recorded at Reel 014777, Frame 0061. Air Products and Chemicals, Inc., disclaims the terminal part of the statutory term of any patent granted on the above-identified application which would extend beyond the expiration date of either the earlier of the full statutory term defined in 35 U.S.C. Sections 154 to 156 or of the term as presently shortened by any terminal disclaimer of United States Patent Application No. 10/724,888.

Air Products and Chemicals, Inc., agrees that any patent granted on the above-identified application shall be enforceable only for and during such period that such patent is commonly owned with United States Patent Application No. 10/724,888, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors and assigns.

The documentary evidence of a chain of title from the original owner to Air Products and Chemicals, Inc. has been reviewed and Air Products and Chemicals, Inc. certifies that, to the best of its knowledge and belief, full ownership of title is in Air Products and Chemicals, Inc.

Appl. No. 10/724,884

**A Fee Transmittal for payment of the fee as set forth in 37 CFR 1.20(d) is enclosed.**

I declare that all statements made in this Terminal Disclaimer of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application and any patent issued thereon.
